

# Enabling Capital Markets in Asia-Pacific by Colt and Equinix

## Access exchanges in Asia-Pacific's emerging markets from anywhere

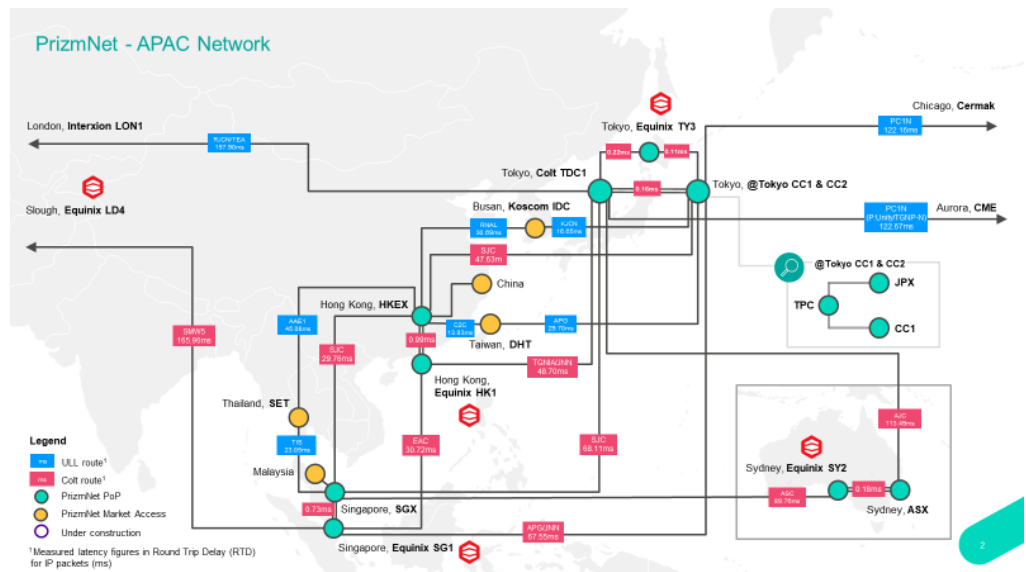

Within Asia-Pacific, the considerable number of exchanges, diverse jurisdictions and absolute geographic distance between venues creates unique challenges and opportunities for market participants. Set against a backdrop of increased volatility and geopolitical uncertainty, firms with access to the latest digital edge technologies and low-latency connectivity can reduce barriers to entry, diversify asset classes traded and lessen dependencies on local liquidity sources – thereby increasing competitiveness in the market.

Join the growing number of market participants accessing exchanges in emerging markets across Asia-Pacific with Colt PrizmNet and Equinix.

Delivered via secure and resilient lines from the local markets to our Asian PrizmNet PoPs in key Equinix hubs HK1, SG1, TY3 enables firms to access the following exchanges for market data & trading services:

- Bursa Malaysia
- Stock Exchange of Thailand (SET) / Thailand Futures Exchange (TFEX)
- Taiwan Futures Exchange (TAIFEX) / Taipei Exchange (TPEX) / Taiwan Stock Exchange (TWSE)
- 7 Mainland Chinese Exchanges (SSE, SZSE, DCE, ZCE, SHFE, CFFEX, INE)
- Global connectivity to PrizmNet 180+ Network of Service Providers, Exchanges & Liquidity Venues

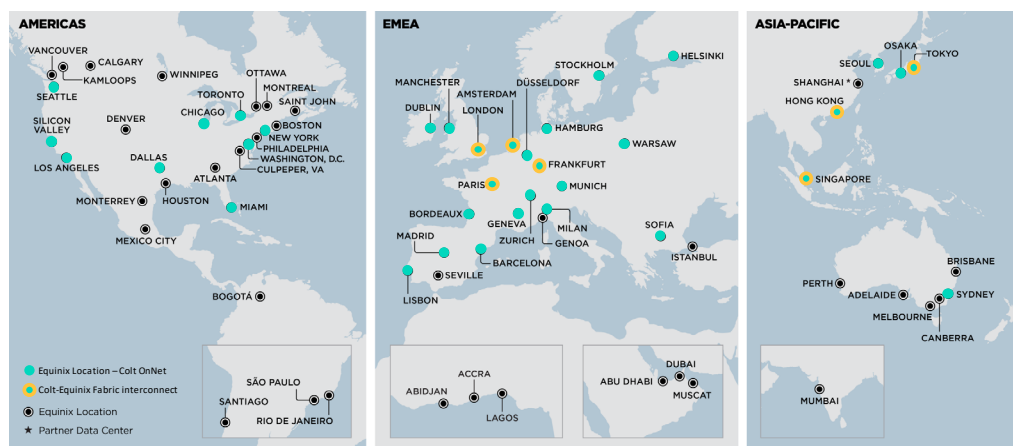

A fully managed end-to-end market access solution, which is delivered directly inside Equinix data centres via Colt PrizmNet – our globally connected next-generation financial extranet – and can be fully integrated into your existing environments – enabling functionality, such as:

- Immediate access to new markets, without the need for direct colocation at the exchange
- Set up regional business continuity hubs, by consolidating the disaster recovery infrastructure for multiple remote exchanges into key Equinix data centres
- Quickly spawn applications on Equinix Metal™, an on-demand, high performance bare metal service
- Provide traders with immediate access to front office applications through rapid provisioning of VDI, on-demand
- Simplify market analysis/replay to validate trading algorithms

The only certainty is change, and competitive advantage is determined by speed of response. Financial firms address a wide range of industry challenges by utilising turnkey on-demand digital infrastructure solutions, optimised for hybrid cloud, and scaled at the trading edge

The integration of Colt and Equinix ecosystems provide a quick and easy way to test and perform analysis, as a secondary and/or backup connection to the main market. The service is all underpinned by PrizmNet's deterministic, low latency network and superior SLA guarantees.

**Benefits include:**

- Global low latency connectivity
- Market data (raw and normalised)
- Hosting and managed colocation

**EQUINIX**

- Globally consistent and secure platform; exemplary uptime record
- Rich financial services ecosystems, spanning all asset classes
- Digital infrastructure and connectivity on-demand

**About Colt**

Colt provides connectivity to 29k buildings & 900+ data centres globally, with over 187k km of wholly owned Fibre. Our specialist capital markets solutions team leverages these assets to provide connectivity and infrastructure solutions to both the buy side and sell side. Including ultra-low latency connectivity for market data and trading access, managed colocation and hosting at exchange data centres and third party liquidity hubs. PrizmNet, our dedicated next generation financial extranet serves a community of 10k capital markets participants globally, 180 services providers and access to all the major cloud on-ramps.

**About Equinix**

Equinix (Nasdaq: EQIX) is the world's digital infrastructure company, enabling digital leaders to harness a trusted platform to bring together and interconnect the foundational infrastructure that powers their success. Equinix enables today's businesses to access all the right places, partners, and possibilities they need to accelerate advantage. With Equinix, they can scale with agility, speed the launch of digital services, deliver world-class experiences, and multiply their value. Equinix hosts the largest multi-asset class electronic trading ecosystem in the world, enabling market participants to trade across equities, derivatives, commodities, foreign exchange and fixed income markets. Its financial ecosystem ensures security and reliability for managing risk and regulatory compliance. The Equinix global team supports over 175 Exchange and trading venue footprints and has dialogue with more than 1,200 financial firms around the world, fuelling the growth and diversification of the financial ecosystem.
